

# Your Ex

Katie Gregson-MacLeod

Saw her at the merch stand  
Talking to her ex-man  
Her ex-man was you  
Short blonde hair

Like the girl who just sang  
The girl who just sang was me

And it would hurt if she bought your t-shirt  
And it ended up on your floor  
If you gave her head to 'State Bird'  
If you stayed with her after tour

And it would hurt if  
Your best friend loved her  
If she lived in the front of your mind  
She's fit and her roots are lighter  
But the bed that you're  
In is mine

Mine  
You're not even  
Mine  
Your ex-girl is  
Fine  
But the bed that you're in is mine

Wasn't thinking 'til you flew home  
If you were lying I would never know  
You could be lying on her couch again  
If you never call  
Me your ex now  
It was nothing or it worked out  
If it was nothing how long  
Before you're playing that song  
At a new house?

And it would hurt if she bought your t-shirt  
And it ended up on your floor  
If you gave her head to State Bird  
If you stayed with her after tour

And it would hurt if  
Your best friend loved her  
If she lived in the front of your mind  
She's fit and her roots are lighter  
But the bed that you're  
In is mine

Mine  
You're not even  
Mine  
Your ex-girl is  
Fine  
But the bed that you're in is mine

It's all that I think about

Maybe it's a couple years from now  
Did we feel it enough?  
Did you like who I turned out to be?  
And it's all that I think about  
At the Fonda or the Roundhouse  
Are you looking for me in the crowd  
Or avoiding my eye  
As I buy an LP?

And it would hurt if she bought your t-shirt  
And it ended up on your floor  
If you gave her head to State Bird  
If you stayed with her after tour

And it would hurt if  
Your best friend loved her  
If she lived in the front of your mind  
She's fit and her roots are lighter  
But the bed that you're  
In is mine

Mine  
You're not even  
Mine  
Your ex-girl is  
Fine  
But the bed that you're in is mine

(It's all that I think about  
You're a couple weeks gone now  
But if you want to try I will  
Do you feel it still?  
It's all that I think about  
And you're all that I want now  
So if you want to try I will  
Do you feel it still?)
