

# Me Without You

Katie Herzig

It's when I wasn't looking that you came along  
It's when I wasn't thinking that the lights came on  
I know it may sound simple, that doesn't mean it isn't true  
I don't know what I'd be if I was me without you

Sometimes in the morning, I wake up before the dawn  
Another day is coming, and I know it will be long  
But knowing that I'll see you, well, that's what gets me through  
h  
I don't know what I'd be if I was me without you

Sometimes I get so far away, and I feel all alone  
No matter where I end up, you always bring me back home

Baker's got his flour, and the farmer has his grain  
Everyone's got something to get 'em through the pain  
And God has all His angels, the ocean's got the moon  
I don't know what I'd be if I was me without you  
I don't know what I'd be if I was me without you
