

## Love & Money

Katie Melua

You didn't have to ask me if I was free today  
I came and sat beside you and then we drove away  
I was in the neighbourhood, pretending to be someone good  
Bringing love and money home

You didn't have to worry, this thing's been going 'round  
Don't tell me about the jewellery or where it can be found  
Dad said it's a false alarm, I thought he sounded strangely calm  
That didn't stop me running home

Holding the line between the shows and interviews  
Never had time to give the best of me to you  
You set me free  
Free to go it alone with nothing to owe you  
But a voice down the phone  
Sending love and money home

In the town of Kutaisi, they named me after you  
Acting was your fantasy that never did come true  
But heaven's voice cast its spell and showed me how to give the hell  
Handed down with love from you

Holding the line between the shows and interviews  
Never had time to give the best of me to you  
You set me free  
Free to go it alone with nothing to owe you  
But a voice down the phone  
Sending love and money home

Sending love and money home
