

Egotistical

Katie Noel

(Diesel gang)

Things in this life that you achieve
Don't let it go to your head
Don't let it go to your head
Dangerous things that you will see
Don't let it go to your head, no

Think you're just so cool with the mad ass flow
A blown up head, that'll sink your boat
Come from the land of humble pride
Where them good old boys try to survive
Blue collar workers with blank stained hanks
Chippin' up the coal, plowing up the land
Pocketing dollars, feed their fam
Tell me if that sounds like glam
I know every day is a gift from above
I been in a wreck and that shit was tough
Guess it really just wasn't my time to go
Maybe God really just likes my flow
I don't know, it's a mystery to me
After all that I can still breath
Should be dead if we get statistical
But maybe that's why I'm not egotistical

Some things happen that we can't explain
Don't you know the flowers blossom out of the rain, no
Before you heal you gotta feel the pain, yeah
Tackle feels of pride, stand up and be the change

Hah
Get it, live it, love it, do it
Singin' [?] baby get through it
Can't climb the mountain, baby just move it
Never give up, never say screw it
Who I am and who I can be
Two very different things to me
Fall down, get back up, succeed
Talking that trash, you will be bleed
Just lay low, keep your title nice and neat
Wanna blow up then you gotta be skeet
Gotta get high to feel that shotgun blast
Build a career that is gonna last
Please God give me the strength to write more
That's the only thing in this life I'm going for
Hope you hear my prayers for peace
But [?] most nights it's a raging sea

Things in this life that you achieve
Don't let it go to your head
Don't let it go to your head
Dangerous things that you will see
Don't let it go to your head, no
I been up and I been down
I been up and I've won crowns
Know how it feels to be on both sides of the road
So hold on to your humbleness and never let it go

Never let it go
Never let it go
Never let it go
Never let it go
Never let it go
Yeah
Never let it go
Never let it go
Never let it go to your head
Never let it go to your head
Never let it go
Never let it go to your head
Never let it go
Never let it go
Never, never, never, never let it go to your head
Never let it go
Never let it go
