

One More

Katie Noel

Spent the whole night together
Talkin' 'bout forever and what we're gonna do
Hand in hand it's talkin' then we get to drinkin' and one turns to a few

We laughed until the sun came up
I don't wanna get up
'Cause that means that you have to leave

So give me one more, one more kiss
Plant it on my lips before you forget
And give me one more sip 'til it's all gone
Got me feelin' so high just like I am stoned
Before you have to leave and then you walk on out that door
Baby give me one more
Give me one more

Next weekend rolls around the bend
Bonfire chillin' out with all of our friends
Twelve AM lovin' the conversations but the thought of you leavin' makes me h
esitate

We laughed until the sun came up
I don't wanna get up
'Cause that means that you have leave

So give me one more, one more kiss
Plant it on my lips before you forget
And give me one more sip 'til its all gone
Got me feelin' so high just like I am stoned
Before you have to leave and then you walk on out that door
Baby give me one more
Give me one more

Yeah
Give me one more
No I'll take two
I can never have enough if we talkin' 'bout you
Give me three, three shots of the shine
Hit the river runnin' as we dance through the night
No four, is it too much ask
Don't worry bout the sun, just turn up the flask
Drinkin' whiskey now, don't worry 'bout class
Livin' for now, we'll let the good times pass

So give me one more, one more kiss
Plant it on my lips before you forget
Give me one more sip 'til its all gone
Got me feelin' so high just like I am stoned
Before you have to leave and then you walk on out that door
Baby give me one more
Give me one more
