I can't turn on my tv without Seein some new somebody who's Smilin stylin tryin to be the next big thing Who says who does or doesn't get to get ahead And who's left with nothin Who get's to wear the big brass ring

## [Chorus]

Somebody's gonna set the world on fire Somebody's gonna fly a little higher than they dreamed Somebody get's a blessing from above Somebody get's to live the life they love Somebody, might as well be me

The way I see it I got a pretty good chance
At being who I wanna be and gettin where I wanna go
I ain't lettin nothin stand in my way
Ain't no reason I can't find somebody who believes in me
Knows how to love me it happens every single day

## [Chorus]

Somebody's gonna set the world on fire Somebody's gonna fly a little higher than they dreamed Somebody get's a blessing from above Somebody get's to live the life they love Somebody, might as well be me

Somebody's gonna set the world on fire Somebody's gonna fly a little higher Somebody somebody

## [Chorus]

Somebody's gonna set the world on fire Somebody's gonna fly a little higher than they dreamed Somebody get's a blessing from above Somebody get's to live the life they love Somebody, might as well be me

Might as well be me
