

## Normal

Katrina Elam

Everybody does it, that's what everybody says  
As they smoke their cigarettes on Friday night  
And if you're still a virgin by the time that you're a junior  
Then the rumor going 'round is you ain't right

Maybe I'm hard headed or a little bit old fashioned  
But I always had a hard time fitting in  
So when they rolled their eyes at me and told me I ain't normal  
I always took it as a compliment

[Chorus:]

Where I'm from normal is high school girls having kids  
Marrying the boys that you grew up with  
They say girl get your head on straight  
You sit around and dream all day  
That far away look in your eye ain't normal

Somebody's got to wear the roller skates down at the Sonic  
But it never really fit into my plans  
So when I up and moved 1000 miles from Oklahoma  
Nobody in that town could understand

[Chorus:]

Where I'm from normal is doing what your mama did  
Marrying the boys that you grew up with  
They say girl get your head on straight  
You sit around and dream all day  
That far away look in your eye ain't normal  
(But) I say yeah, what's so great about normal

[Bridge:]

I don't know what happens but that's okay  
'Cause I know what wouldn't happened if I stayed

[Repeat 2nd Chorus]
