

Wake up  
Momma's mad cause I stayed up  
Sneakin out tryna meet with someone I shouldn't see  
Picking apart what's wrong with me

My house  
Sometimes it gets too loud  
So I wait till my girls pull up in their dad's m3  
Careful that we don't lose those keys

Ohhh  
Never wanna do what I'm told  
Even if I mess it all up and make a million mistakes

At least I can say that I did it my way  
Gas pedal like 95 flying east bound  
Hands up no slowing me down

And if my heartbreak breaks least I did it my way  
Like a firework showing up over your town  
Even if it all burns out I did it my way

Big curls and they all stare  
Yeah I tried to fit in your box of pink Barbie dolls  
Found I still couldn't win them all

I kinda miss being young dumb and naive  
Cause now I realize growing up ain't what it seems so  
Now I just live for today  
And if I make a couple mistakes

At least I can say that I did it my way  
Gas pedal like 95 flying east bound  
Hands up no slowing me down

And if my heartbreak breaks least I did it my way  
Like a firework showing up over your town  
Even if it all burns out I did it my way

Never wanna do what I'm told  
Even if I mess it all up and make a million mistakes

At least I can say that I did it my way  
Gas pedal like 95 flying east bound  
Hands up no slowing me down

And if my heartbreak breaks least I did it my way  
Like a firework showing up over your town  
Even if it all burns out I did it my way

I did it my way way way  
I did it my way way way  
I did it my way way way  
I did it my way

Yeah I did it my way
