## **Chase Me**

Late at night, call me on the phone When I'm all alone and you whisper words of sweetness Tried to fight, getting in the zone Gotta stay at home, but since you know my weakness

You keep saying that you're real Give me something I can really feel Cause when you say the words Can't help but feel the worse

Chase me, you know that I'm the one So face me but I can't give it up So easy what if you ain't true I can't trust my whole heart to you, you, you, you, you

Sad today, walking to the [?] With your friends, always like you don't know me Nothing to say when I catch you [?] you had something to show me

You keep saying that you're true Tell you who they can give in to you Cause when you say the words Can't help but feel the worse

Chase me, you know that I'm the one So face me but I can't give it up So easy what if you ain't true I can't trust my whole heart to you, you, you, you, you

Don't let this go just show me that you're true Just let me know you won't break my heart in two Patience is a virtue, I won't hurt you, won't deserve you If you just hold on, would've been yours all along, along

Chase me, you know that I'm the one So face me but I can't give it up So easy what if you ain't true I can't trust my whole heart to you, you, you, you, you
