

# Honey

Katy B

Something 'bout your vibe, I know I can trust you  
Somehow dream has got me wild  
High on thoughts of you, won't come down  
When you ask my name every word was gentle  
Had me down to play your game  
Down to give my soul so gladly

What is on your mind?  
Now you've got me here, make your move  
Please, don't take your time (please, don't take your time)  
All that talk, it's now time to prove  
Darling just lean in  
I am sure you'll want to taste this  
Honey on my skin (honey on my skin)  
I'm sure you won't want to waste it

Taste it baby, taste it baby  
Taste it baby, taste it baby  
Kiss it baby, kiss it baby  
Kiss it baby, kiss it baby

I can see your truth, I can see the life reflecting  
This is all for truth  
Only cause you keep respecting everything I do  
But to keep it real I'm ready, I'm ready for you  
Take me to that state so heavy

What is on your mind?  
Now you've got me here, make your move  
Please, don't take your time (please, don't take your time)  
All that talk, it's now time to prove  
Darling just lean in  
I am sure you'll want to taste this  
Honey on my skin (honey on my skin)  
I'm sure you won't want to waste it

Taste it baby, taste it baby  
Taste it baby, taste it baby  
Kiss it baby, kiss it baby  
Kiss it baby, kiss it baby

Waiting for your kiss [?]  
I bought this collar for you on my lunch today  
I heard her say, girl he'd be crazy not to  
Maybe you're too shy, I wonder why the air feels so suspended  
I move closer in, let us begin or we will sure regret it

What is on your mind? (what is on your mind?)  
Now you've got me here, make your move  
(now you've got me here, make your move)  
Please, don't take your time (please, don't take your time)  
All that talk, it's now time to prove  
Darling just lean in (darling just lean in)  
I am sure you'll want to taste this (you'll want to taste this baby)  
Honey on my skin (honey on my skin, honey yeah)  
I'm sure you won't want to waste it (you won't want to waste it)

Oh baby  
Oh waiting for you to, to be here  
Taste it, taste the honey baby  
On my skin...
