

## See Through

Katy B

I see my eyes getting darker  
And my skin getting paler  
I see my hair getting longer  
And my nails getting shorter

I feel my knees getting weaker  
And my heart heavier  
I feel our love getting deeper  
But not in a good way...

()

I can't reach you  
Your soul's gone see through  
I don't know what you're into  
Like I did before

I feel my mind set ...  
But my blood's still pumping  
So hard I can see it  
Well I choose to believe it

Now this feels hardest  
Cause my heels in the carpet  
And your voice seems louder  
Since you've got more power

But I can't reach you  
Your soul's gone see through  
I don't know what you're into  
Like I did before

Do you want me to set you free?  
Oh set you free, show me  
How it is, how you do  
And now I'm standing right in front of you  
And now you're gone, or so it seems

Let me know when I'm back in your dreams  
And I'll tell you if you're in mine

But I can't reach you  
Your soul's gone see through  
I don't know what you're into  
Like I did before...
