

# So Far Away

Katy B

You, you give me such a good feeling  
You, you give me just what I need  
And I, I get this crazy sensation  
When, it's just you and I, it's just you  
We're so far away from  
Everything and everyone, baby  
We're so far away from  
All the stresses of the world now  
We're so far away from  
Everything and everyone, baby  
We're so far away, so  
Don't you go stoppin' your love now

We're so  
We're so far away  
We're so  
We're so far away  
We're so  
We're so far away  
We're so

I, I used to keep my heart guarded  
We, don't know now just what we started  
You, you push me high to the heavens  
When, it's just you and I, it's just you  
We're so far away from  
Everything and everyone, baby  
We're so far away from  
All the stresses of the world now  
We're so far away from  
Everything and everyone, baby  
We're so far away, so  
Don't you go stoppin' your love now

We're so  
We're so far away  
We're so  
We're so far away  
We're so  
We're so far away  
We're so

So hold me, feel me, touch me, keep me warm  
Tonight's (?)  
Hold me, feel me, touch me, keep me warm  
It's just you and I, it's just you  
Hold me, feel me, touch me, keep me warm  
Tonight's (?)  
Hold me, feel me, touch me, keep me warm  
It's just you and I, it's just you  
From all the madness  
From all the sadness  
From all our troubles

We're so far away  
We're so far away  
We're so far away

We're so far away  
So pull me closer  
We're so far away  
So far away

We're so far away from  
Everything and everyone, baby  
We're so far away from  
All the stresses of the world now  
We're so far away from  
Everything and everyone, baby  
We're so far away, so  
Don't you go stoppin' your love now

We're so  
We're so far away  
We're so  
We're so far away  
We're so  
We're so far away  
We're so
