Katy Nichole

Ooh, ooh

God, I've fallen in too deep
It's nothing You can't see
I know this desperate soul needs saving
Lord, have mercy on me
Come find me in my need
I'm just a wound away from breaking

Please, come and rescue me
I'm falling to my knees
I need You like the breath I'm breathing
Please, come and win this fight
I've let my white flag fly
I know You are the strength I'm needing
Please, oh-oh, please
Jesus, help me please

Lord, I've done what I have done
Your grace is still enough
To cleanse me though I'm so unworthy
God, Your kindness never fails
Your love would still prevail
Even though I don't deserve it

Please, come and rescue me
I'm falling to my knees
I need You like the breath I'm breathing
Please, come and win this fight
I've let my white flag fly
I know You are the strength I'm needing
Please, oh-oh, please

(Please)
Lord, I need You, I need You now
(Please)
Lord, I need You
(Please)
I need You now

Please, come and rescue me (Come and rescue me)
