

# Electric

Katy Perry

Electric

In the dark when you feel lost  
Wanna be the best but at what cost?  
If you're gonna stay here  
Nothing's ever changing, no  
Big world, gotta see it all  
Gotta get up even when you fall  
There's no point in waiting, no

Oh  
They'll try to bring you down  
Oh  
But you've got the power now

I know you feel it, feel it  
If you believe it then you can  
There's no reason that this life can't be  
Electric  
Oh, I can see it, see it  
If you believe it then you can  
There's no reason that this life can't be  
Electric

Long road, got a ways to go  
Took a big step, but you're not alone  
'Cause we got each other  
There's so much you'll discover  
Headstrong but your heart is stronger  
Stay calm walking through the fire  
I know you're gonna make it out

Oh  
They'll try to bring you down  
Oh  
But you've got the power now

I know you feel it, feel it  
If you believe it then you can  
There's no reason that this life can't be  
Electric  
Oh, I can see it, see it  
If you believe it then you can  
There's no reason that this life can't be  
Electric

Oh  
They'll try to bring you down  
Oh  
You're electric right now (Electric)  
Oh  
But you've got the power now  
Oh  
You've got the power now

Electric  
You've got the power now

Whoa-oh yeah, yeah

I know you feel it, feel it  
If you believe it then you can  
There's no reason that this life can't be  
Electric  
Oh, I can see it, see it (Oh, I can see it)  
If you believe it then you can  
There's no reason that this life can't be  
Electric

Oh  
They'll try to bring you down  
Oh  
You're electric right now (Electric)  
Oh  
But you've got the power now  
Oh  
You've got the power now

You've got the power now
