

# Speed Dialin'

Katy Perry

(Hello?

Hi, its me...can I come over?)

Sometimes I want a shot of your novocaine  
I think I found the switch  
That turns off the brain  
Locate the black hole  
That I can jump right through

Cause my ears they won't stop ringing  
I won't stand another pick up line  
Oh my heart it will stop beating  
If I don't see you tonight

I'm throwing down some drinks  
And then speed dialin'  
I think I'm gonna wake you up  
I stutter when I speak  
But I'm not lying  
I think I want you way too much  
These things I confess  
They just lead to a dysfunctional love  
Just don't hang up  
Just, just don't hang up!

Running away is not the solution  
My head's not straight with all this pollution  
Electronic gadgets add to the confusion

So, are you on your own?  
Or should I take a rain check?  
Now am I going home?  
Or will I cry my eyes out?

I'm throwing down some drinks  
And then speed dialin'  
I think I'm gonna wake you up  
I stutter when I speak  
But I'm not lying  
I think I want you way too much  
These things I confess  
They just lead to a dysfunctional love  
Don't hang up

There wouldn't be so much to say  
If I wasn't in this all to stay  
Is it too late  
For us to communicate?

Speed dialin'  
Speed dialin'

I'm throwing down some drinks  
And then speed dialin'  
I think I'm gonna wake you up  
I stutter when I speak  
But I'm not lying

I think I want you way too much

Don't hang up

Cause I want you way too much

Out of luck

Because you're too far for me to touch

Don't hang up

Because I need you way too much
