

## Let's Become

Katy Rose

I see the light in you  
You see the light in me  
We've outrun our shadows  
We fed the beast

We're beautifully broken  
Not damaged, just open  
Well, together, we're woven

Let's become the lovers that we dream about  
Let's become the people we can't live without  
Let's become the puzzle, find the missing piece  
I'll hold you in my arms so you can be free  
Hold you in my arms so you can be free, oh

There's nothing to say  
We're in a silent dance  
Our fears fade away  
Afraid to hold our hands

We're beautifully broken  
Not damaged, just open  
Well, together, we're woven

Let's become the lovers that we dream about  
Let's become the people we can't live without  
Let's become the puzzle, find the missing piece  
I'll hold you in my arms so you can be free  
Hold you in my arms so you can be free

Let's become the mothers and the fathers who stayed  
Let's become a gift we never give away  
Let's become a puzzle, find my missing piece  
I'll hold you in my arms so you can be free  
Hold you in my arms so you can be free  
Hold you in my arms so you can be free  
Hold you in my arms so you can be free
