

## Hunter and Prey

Kayak

Looking around, there's temptation  
Can't have it all, but it's scorching your skin  
Telling the saint from the sinner  
White from black

And you make the deal  
Need to break the seal  
Cause you pay the price  
And you'll sacrifice

Living your life on probation  
Under control till the cold's creeping in  
Selling your soul to the highest bidder  
There's no way back

And you take that road  
Need to break the code  
Cause you compromise  
And you sacrifice

Isn't that what they say  
From their shelter of morals and excuses?  
Isn't that what they do?  
Isn't that what they're programmed to believe?  
No one gets it for free  
In the end, no one gains and no one loses

But this road never ends  
And it's not making sense  
But they lose either way  
Both hunter and pray

Living your life on probation  
Under control till the cold's creeping in

Selling your soul to the highest bidder  
There's no way back

And you take that road  
Need to break the code  
Cause you compromise  
And you sacrifice

Isn't that what they say  
From their shelter of morals and excuses?  
Isn't that what they do?  
Isn't that what they're programmed to believe?  
No one gets it for free  
In the end, no one gains and no one loses

The pursuit never ends  
It's a marathon dance  
To the music they play  
For the hunter and pray

Isn't that what they say  
From their shelter of morals and excuses?

Isn't that what they do?  
Isn't that what they're programmed to believe?  
No one gets it for free  
In the end, no one gains and no one loses

The pursuit never ends  
It's a marathon dance  
To the music they play  
For the hunter and pray
