

Something's gotten over me  
My world's gone upside down  
And there's no single remedy  
Only you can make it turn around  
Rhea don't you ever set me free  
Don't take away the love I found

I just need to see your face  
To make my whole world right  
I just want your sweet embrace  
And feel you close to me at night

R:  
Rhea  
Let me shower you with love  
Rhea  
I'll be there when times are rough  
Rhea  
We maybe living oh so many miles apart  
You're locked inside the prison of my heart

Loving you comes naturally  
It's all I wanna do  
You changed the man I used to be  
Into someone I never knew  
But would you ever think of leaving me  
You know I won't get over you

I just need to see your face  
To make my whole world right  
I just want your sweet embrace  
And feel you close to me at night

(R)
