

Water For Guns

Kayak

Tell me what's left to believe in
Tell me how to change my mind
Appearances can be deceiving
But they'll never stand the test of time

Wondering whether to move on
Hold you close or let you go
There always is a price to pay
And I'm gonna hurt you either way

It's water for guns
Water for guns
Running out on love's recourses
Torn between two equal forces
Water for guns
Water for guns
One step forward two steps back
Impossible to get back on track again

Virtually acting like strangers
At a crossroads in our lives
Constantly living in danger
Off what will happen when two worlds collide

Could not live with or without you
We've got our backs against the wall
Crying out in desperation
It's a no-win situation

Water for guns
Trading water for guns
No escape in isolation
No room for negotiation
Water for guns
Water for guns

You still make my heart beat faster
Though I know that we won't last its
Water for guns...
