He don't understand who you are baby (Yeah, yeah)
Too busy to change some [?] (Yeah, yeah)

You got it like [?] that's fake, yeah
Heard you looking for somebody thrill, I'm on the way, yeah
Look into your eyes I can't tell you lies, I can't tell
When you come around I'ma hypnotize you for real

Haunted from your past, go get you a bag, you can do it
You go home alone [?] stupid
I would never shut you down you got a voice that need to be heard
So when you down tonight, you feel a way, just send me some words
I'll be around to change how you feel and break the curse

Rather show you different ways, I'ma show you what you will
If you ever ask for space I'ma give you a field
If I ever go to war then your heart is my shield, yeah yeah
If I gotta sign for your love then it shall be sealed
If I gotta tell the whole world about you, girl, I will
