

LIGHT THE GLOBE (SERENA)

KayCyy

Light the globe, make the money go around ('Round)
Touch your toes, let me see how you go down
In the night, you can catch me with my dogs
Havin' these rackets, got Serena in our hands
Light the globe, make the money go around ('Round)
Touch your toes, let me see how you go down
In the night, you can catch me with my dogs
Havin' these rackets, got Serena in our hands

Love her balance, yeah, I'm lovin' her stance
She got talent, watch her do it with no hands
What you doing after? Gotta ask you what's your plans
Not no actor, keep it real, I keep it a band
Body perfect, tryna see where we can lay
It's some things that is in my mind I gotta say
How you keep that body tight, I paint your face
Make it switch, I keep on lookin' at it shake

Light the globe, make the money go around ('Round)
Touch your toes, let me see how you go down
In the night, you can catch me with my dogs
Havin' these rackets, got Serena in our hands
Light the globe, make the money go around ('Round)
Touch your toes, let me see how you go down
In the night, you can catch me with my dogs
Havin' these rackets, got Serena in our hands
