

NO COLD

KayCyy

Ooh, yeah
Yeah, ooh, ohh, ooh

She pray for autumn leaves, but I brought her snow
Get on your knees, when you ask for more
My lawyer fees took quite a toll
My loyalty will not cost my soul
My enemies, they gotta make new goals
Crossin' me, it ain't workin' no more, huh
Ain't working no more, huh
Ain't working no more, huh
Ain't working no more, huh
Ain't working
Told her stay or leave, whatever floats your boat
Apparently, she study horoscopes
See new trees out in the Ivory Coast
Let my eyes see what you can't see close
Let's go, ayy
Let's go
Let's go
No more stress, I'll be your antidote
Below zero, I still need no coat
It's just a few niggas, like I started a new cult
It's so many bitches but I'm still like invite more, yeah

Feel alive right now (Yeah, yeah)
I can feel the vibe right now
Feel alive right now
Yeah, I can feel the vibe right now
Feel alive right now
Aye, I can feel the vibe right now
Feel alive right now
Aye, I can feel the vibe right now
Feel alive right now
