

## Plan A (Outro)

KayCyy

Yeah, yeah, yeah, yeah, yeah  
Woah, Woah, Yeah

Yeah, only plan B I had was GED  
I was stuck on plan A I was tryna set us free  
I always knew what I wanted you just gotta believe in me  
That's why I think twice when I met B  
Signed seal delivered like I'm Stevie Wonder  
I hopped inside that Escalade when I first touched down  
I was in a Jersey studio for the whole month  
Then we'll drive all the way back to Long Island when I'm done (Yeah,  
yeah)  
I seen em have money and spend money  
Notice who's there only just for the money  
My lord he stay firm, don't move around them snakes  
Lesson learned we can't do money never go to waste

For them bitches like to link up we don't chase  
When I make 100 mil' I pray on change  
I done went a found a way where there's no way  
The bounce back has made [?] kinda sour (Woah, woah)  
Hmmmm, yeah  
Hmmmm, yeah

When we ran in the booth, felt like we was closer  
My guy keep blessing me it feel like I am chosen  
All the time in that basement it feel like it was pain only  
Take my Momma on vacation, lift the pain off  
No more medication, you gon' live long  
And no more hard labour you get years off  
10 years run the game and I put that on you  
Niggas stop the hits, they don't know what to do

I seen em have money and spend money  
Notice who's there only just for the money  
My lord he stay firm, don't move around them snakes  
Lesson learned we can't do money never go to waste

For them bitches like to link up we don't chase  
When I make 100 mil' I pray on change  
I done went a found a way where there's no way
