KayCyy

Unintelligible

Tonight I wanna V alone  
Tonight I wanna V alone  
So baby, don't call my phone  
Leave me alone  
Just me and my weed  
Just me and my weed  
We'll be alright  
Because she understands me  
Tonight I wanna V alone  
Baby, don't take it wrong  
I just need to V alone  
I just wanna smoke my strong

Just me and my weed  
Just me and my weed  
It's fine by me  
If you decide to leave  
Had too much stress on my mind  
Rolling up right by now  
When I roll up, I forget about you  
I wanna forget about you  
My weed  
Selfish or not yeah  
Oh, shit my spliff now  
We getting maried tonight

Tonight I wanna V alone  
I wanna V alone  
So baby, don't call my phone  
Leave me alone  
Just me and my weed  
Me and my weed  
Baby say oui  
Just me and my weed

Say oui like you speak French baby  
I say oui like you speak French baby  
Let me see it's French in here 1 time  
I forgot I was smoking by myself  
I just wanna smoke my spliff  
I just wanna smoke my spliff and do me girl  
I don't want you to stress me out  
I got into a lot, I got a lot on my mind right now  
I don't need too much to add on me  
I just need to relax see  
I just need some patience  
I also need some privacy  
Privacy, maybe piracy  
You are still in me  
You're still in my heart girl, I want you to leave  
Leave me alone tonight
