KayCyy

I was hard to maintain, man I almost gave up
God gave me this life, but it has been hard to live it up
So many people struggling, trying to get themselves a buck
Overcame that recession, it's a blessing it's not luck
Cause I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
A nigga is blessed in every way

I'll never settle for less, that's why I got diamonds on that
You gotta earn you respect, you gotta go out and get it
You know that you get what you get
I hope that you giving a lot
Appreciate when you don't got it, cause when you get it, it's gonna feel like a lot
Remember tryna finally get away, and my teachers told me I weren't gonna make a wave
I went from Minnesota to another country in a bout to sail away
I fly in every state, rocking every chain, that's that shit that's gon motivate
My young niggas feel the pain, better feel the same, that's that shit that's going to make a change
If I caught another petty case, my momma fuck around and die away
Cause all that stressing that she overcame, I thank the lord that he made away
Demons tryna get me every day, cause a nigga so blessed
Diamond cross from my chest, I would never give a rest

I'm glad I went through the struggle, it got me ready for success
I'm glad I went through the struggle, it got me ready for success
I'm glad I went through the struggle, now I'm ready for success
I know they wanna see me lose, but I got em upset

I was hard to maintain, man I almost gave up
God gave me this life, but it has been hard to live it up
So many people struggling, trying to get themselves a buck
Overcame that recession, it's a blessing it's not luck
Cause I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday

I woke up this morning feel like I, got the world in my hand's, peace in my mind, boss in my stance
Paid a price for my life, rolling my dice taking my chance
Manifesting my dreams, tryna be king, watch me advance
They can't rule out my plans, I just do what they can't
And I'm feeling better today, I had to find me a way
They put my uncle in cage, they wanted me in the grave
They wanted me to be salve, fuck is a minimum wage

They telling me to behave, I'm about to bring them the rage
I'll never settle for less, I had to learn to finesse
I got to do it the best, talking to God he let me know I am the blessed, had
to let go of my stress
Now I am finally seeing better days, now I am linking up with [?]
Remember back when I was feeling low, now I am feeling like I levitate
I gotta make it out the struggle, I am dedicated to the hustle
I treat my mind like a muscle, and flex on em like Russel
I gotta make it out the struggle, I am dedicated to the hustle
I treat my mind like a muscle, and flex on em like Russel

I was hard to maintain, man I almost gave up
God gave me this life, but it has been hard to live it up
So many people struggling, trying to get themselves a buck
Overcame that recession, it's a blessing it's not luck
Cause I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
I am doing better than yesterday
A nigga is blessed in every way

I'll never settle for less, designer fits for my set
I'll never settle for less, my diamond teeth on wet
I'll never settle for less, all my niggas need respect
I'll never settle for less, we got them niggas upset
I'll lose my life before I lose my mind
I'm smoking weed, that help me with the time
