

ALL WE DO

Kaytranada

It's easy to forget, everything
Gotta give to get, anything
Never an easy bet, nothing is guaranteed
But you can't regret, everything

All we do is run around
And lose our focus, we're all unfocused
Just forget about the ones
That we are closest to, closest to

So I, I'm not gonna lead you on
Cause I know it ain't worth it, it ain't worth it
Said I, I don't wanna lead you on
But nobody's perfect, nobody's perfect

It's easy to play dead, no feelings
Fall into my bed, make a scene
Is this what you call sex? It's new to me
Is that what you call wet? I guess we'll see

All we do is run around
And lose our focus, we're all unfocused
Just forget about the ones
That we are closest to, closest to

So I, I'm not gonna lead you on
Cause I know it ain't worth it, it ain't worth it
Said I, I don't wanna lead you on
But nobody's perfect, nobody's perfect

All we do is stretch the truth
It's not fair, it's not fair (That's all we do)
All we do is stretch the truth
It's not fair, it's not fair (That's all we do)
