

Be Careful

Kaytranada

I just wanna see you move
(Just let me see you walk)
I only got dressed up for you
Be careful how you look at me
'Cause we might not make it out the room

It's 10 o'clock
I'm checkin' my watch
Because you're taking so long
Now you've caught my eye
And it's over
We're not gonna make it
You look so good I think I'm gonna pass out
I think I'm breathing too hard
Let the phone ring
Just cancel the Uber
This might get a little rough

I just wanna see you move
I only got dressed up for you
Be careful how you look at me
'Cause we might not make it out the room

I like your hair
And the way that you walk
It's really turning me on
Let me finish my drink
And turn down the lights
I'm 'bout to give it to you
Let me kiss your lips
Down to your neck
I wanna play in your hair

Girl you got me hot
Once we start we can't stop
Just let me get them jeans off

I just wanna see you move
(Just let me see you walk)
I only got dressed up for you
Be careful how you look at me
'Cause we might not make it out the room
