

# Intimidated

Kaytranada

Open water  
Just what you wanted  
So don't leave me drowning  
Don't let me down

Don't  
Don't hold it back like that, just pull me closer  
Baby  
Let's make the most of this before it's over  
Over

Time  
Don't wanna waste the feel  
Like we could make it real  
Don't run away when you could be lovin' me  
Signs, too busy reading minds  
Already made it here  
Don't overthink when you could be lovin' me

(When you could be lovin' me)  
(When you could be)

Get me started  
Before this started  
I could be giving someone all of me  
Totally  
Totally

Don't  
Don't hold it back like that, just pull me closer  
Baby  
So better make the most of this before it's over  
Over

Time  
Don't wanna waste the feel  
Like we could make it real  
Don't run away when you could be lovin' me  
Signs, too busy reading minds  
Already made it here  
Don't overthink when you could be lovin' me

(When you could be lovin' me)  
(When you could be)

Play it safe case I don't feel the same  
Oh, end of the day  
Won't face it, you too afraid to say you're too intimidated  
(When you could be lovin' me)  
(When you could be lovin' me)  
(When you could be lovin' me)
