

Out Of Luck

Kaytranada

Can't afford you
Can't pretend, can't move forward
I'm all in, I'm all for you
I'm depending on this, whoa

If I
If I were choosing you
Baby
Would you make me believe?
Believe this
I'm all out of luck, love

If I
If I were choosing you
Baby
Would you make me believe?
Believe this
I'm all out of luck, love

Is it more than a little?
You're a bit preoccupied
And you all in the middle
Baby, have you lost your mind now?
Give it up, put an end to it
I need undivided time, I'm onto you
Baby, I'm onto you

If you treat me right, you won't need another lover
Can you fantasize all the things that ever wanted?
Right here, by your side
You won't need another woman
Baby, I'll be there

If I
If I were choosing you
Baby
Would you make me believe?
Believe this
I'm all out of luck, love

If I
If I were choosing you
Baby
Would you make me believe?
Believe this
I'm all out of luck, love
