

Go Off

KB

You think bein' meek is weak, huh?
You try bein' meek for a week.

I go by K to the second letter
But my name is a second matter
Give me a second: I'll bring you from Cain to the second Adam
For a slave boy I'm up and at 'em
For the pain boy I'm up to bat
Patient for the win
'Cause we win-slow with these family matters
I'm so convinced
That you won't find no bolder men
Than those of them
That's going in
For holiness
God goes with them
What you know about going harder?
Walk with me through these martyrs
And fathers that barely father
For the Father boy don't get me started
Let me try to break it down
I thought I'd be doing it if I moved a couple pounds
Made a hundred-thouwith the women in the house
But that ain't doing nothing but f-f-following the crowd
If everybody is doing what everybody is doing
You're cool with doing the opposite of everybody is doing
You're going hard for Yeshua
You're going hard in the truest
I promise

I'm goin' off
Goin' harder than I've ever been, I put that on everything

I'm goin' off
Goin' harder than I've ever been, I put that on everything

I was a hot head
Bad attitude
Woul'da coulda shoulda been shot dead
Always running my mouth
I'd rather die than be soft man
I've been slammed on my back just to prove that I'm not scared
(turn the other cheek)
Stop playing
Till I met Jesus and really seen just what He's about
He endured the cross
To kill 'em all
Woul'da been the easy route
When I first got saved had a dude come up to me
Talking tough to me
Wanted to duck and swing but I walked away that was the tougher thing.
See a Godly man acts different when he's been wronged
He's knows how to overlook offense (a fence) like a peeping tom
It's easy to smoke your problems away with that Cheech and Chong
It's hard to take 'em head on
He mans up before the Lord
What about the brother that discovered that his lover was under the covers w

ith another man (that's hard)

With everything inside you got me wanna go and body him but giving 'em grace
instead (that's hard)

What about them brothers who are worried about multiple women but they married and they know they got to be there for their children so they wanna be living their faith and they giving their wife everything

I'm goin' off

Goin' harder than I've ever been, I put that on everything

I'm goin' off

Goin' harder than I've ever been, I put that on everything

I go off: hard for this

No holds barred the Lord is in

No arguments

Keepin' my cool

Faith on fire, no arsonist

It's hard to miss

One one six, yeah

Una-shamed

Rep it name

Even when they disregarding this

Our culture don't go hard for this

I know it's tough

When your eyes and your mind seek lust

And your pride is a must

And your lies rise up

To disguise what's what

And you feelin' like quitting 'cause what you tried ain't enough

That's when you take hard

Die daily

Stay on guard

Harder

Harder I go for the Lord

Go hard till the day I depart

I, go harder for the Father even if it means I'm martyred or slaughtered or fall

It doesn't matter He bought us

He chose to call us

Somebody planted and watered and these seeds

Increase when He's been through like trees

Breathe ah breathe

Breath in my body

Of the King I'm a product

Chance is slim, but I deem I'm sought out

But He caught us

All us

Guaranteed he got us

So I'm living this thang

Giving the reigns

Even when I know that temptation is tryna slip in this thang

It's so much easier man

To give into sinning like many of the men and women I know who caught up in chains

Steady living in vain

And they sit with no shame

And they slack in the prison

Until they meet up with saints

Who be bringing them change

Yep all in His name

Until they unashamed

I'm goin' off

Goin' harder than I've ever been, I put that on everything

I'm goin' off

Goin' harder than I've ever been, I put that on everything
