Miracles on miracles  
Miracles on mir-

Yeah, I've been writing songs from my eyelids  
Mixing tears with the ink from a ballpen  
How am I here spent an hour writin' four words  
Look what God did  
Silhouette

What the bullets left, emptied out the clip that y'all missed  
The car flipped, walked away without a scratch, aye  
The doctor gave us 6 weeks, issa cap  
Yeah, 'cause 6 years later can't explain it, look at where we at  
Yeah, I been drownin', I been asking why would God allow this  
If we were never lost then we would never know what found is  
I put no wish in no fountains  
I just remember the mountains  
Movin' when we were surrounded, how many times He found us

Yeah, and said it's love regardless  
He will work it all together like He promised  
If I don't get it, Lord, please help me recall this  
And now

I can barely count all these miracles (Yeah)  
I cannot be stuck on how it didn't go (Yeah)  
I just count on You, it be like 1, 2, 5, 10 then again  
Yeah, I'm wildin' if I can't keep on counting all these miracles (Yeah)  
If I start to slip, help me remember those (Yeah)  
They say won't He do it, yeah, He did it though  
He did it though, and I'm with it though  
The feeling goes, but still I know  
I'm just holding to the miracles

Anxiety been trying me, I'm praying through it  
I just hope that God been hearing what I'm saying to Him  
No use acting like I'm perfect, I'm a scarred man  
Ain't got nothing figured out, I'm trusting God's plan  
Seen my marriage on the rocks  
Hit the bottom, didn't drop  
Cousin locked inside the box, someone tell me when it stops

They say it don't rain forever, but this rain is what I need  
Blessings planted in my future, everyone is just a seed  
Everyday I'm in Your presence, I'm Your temple  
Let your Spirit breathe through me the way the wind do  
They don't if change is coming, I can feel it though  
'Cause when I look behind me

I can barely count all these miracles (Yeah)  
I cannot be stuck on how it didn't go (Yeah)  
I just count on You, it be like 1, 2, 5, 10 then again  
Yeah, I'm wildin' if I can't keep on counting all these miracles (Yeah)  
If I start to slip, help me remember those (Yeah)  
They say won't He do it, yeah, He did it though  
He did it though, and I'm with it though  
The feeling goes, but still I know

I'm just holding to the miracles

Miracles on miracles

Miracles on miracles

Miracles on miracles

Miracles on miracles

Yeah, He did it though

He did it though, and I'm with it though

The feeling goes, but still I know

I'm just holding to the miracles
