Yeah, I live my life on the regular, ayy  
Both of your takes are perpetual, ayy  
Forbidden Fruit seem so edible, ayy  
You try resist like ellipticals, train  
My mama told me it's spiritual, ayy  
So I'm under armor like I'm Curry, look  
You cannot bear with the boy, yeah  
This is not the Jungle Book  
Accuse me, know he would  
I'm just covered by the blood  
Thinkin' about the way that they did you serpent  
Crushin' like Valentine's  
Can't you see what the mission cost with the finish, swish  
Don't try to slide in my DM  
OJ Simpson with the defense  
Lake of fire say we need him  
Last weekend, but

Not today Satan  
Ooh  
You ain't welcome 'round me  
Ooh, yeah yeah yeah  
Not today Satan  
Not today Satan  
Yeah, yeah, yeah  
Not today Satan  
You ain't welcome 'round me  
You ain't welcome 'round me  
Not today

Yeah, speak of the devil, ayy  
I think I know where he live, ayy  
I think he in politics, ayy  
I think you gettin' my drift, ayy  
Yeah, I think he made the Explore page  
I seen him at my last court date  
I'm askin', "Lord, give me more faith"  
It's cold in these street like a North Face  
Ayy, gotta keep my face cloth  
And I know my days short  
So I stay woke, never daze off  
'Cause, uh, evil never takin' no days off  
Whoa there, big fella, don't try it  
Get that corn out my face, you know I'm on a diet  
And I'm treatin' all of your lie like United  
That just ain't flyin'

Not today Satan  
Ooh  
You ain't welcome 'round me  
Ooh, yeah yeah yeah  
Not today Satan  
Ooh  
You ain't welcome 'round me  
You ain't welcome 'round me  
Not today

La, la la, la la  
La la la, la la, la la  
Oh my God, now, ayy

Yeah, I know your ways  
Already read all your plays, yeah  
I think I'm booked for tomorrow, yeah  
And today just ain't your day, ayy ayy  
I see you feedin' they hate  
See the bodies that you take  
We do not break, never no breaks  
Buildin' displays on top of your cake  
Come and see me 'bout it, ooh  
My squad too deep  
Got it covered like Newsweek  
Kickin' these facts like Bruce Lee, yeah  
Before the W's like UV, yeah yeah yeah  
UV, Son gotta shine, Lord, use me  
Hit 'em with the ooh  
Come out here, don't let him fool ya  
He bring up your past  
Boy, bring up his future  
We not confused (we not confused, we not confused)  
Your name is racist, hatred, graceless  
All disgraces traces straight to your engagement  
To face the natures but on that day you face the Maker  
Not to-Not today Satan

Yeah, I believe boys on me  
Believe boys on me  
Not today Satan, not today  
Amen
