

New One

Keane

I am the one I am the only one that I care about
She is the one she was always the one to go running around in a
nother "land"
She go on

I am the one I am always the one that I recognize.
And you are the one for me. Always the one I go running around
in another "land"
I go on to you. Will I miss me when am all gone?
I take on to know I was so
If you want to runaway. I take back all I say
I take on to know I was so

I am the one I am always the one to be recognized
She was the one she was always the one to running around in ano
ther "land"
She go on to you. Will i miss me when im all gone?
I take on to know I was so
Well you want to runaway. I take back all that I say
I take on to know I was so
I saw the "full moon" take you
I saw the "full moon" take you

If you want to runaway. I take back all that I say
I take on to know I was so
Well she wants to look away. She wants to run away
I take on to know I was so
I saw the "full moon" take you
I saw the "full moon" take you
