

# Just Outside My Window

Keaton Simons

When she told me you had died  
I took a breath  
Blinked my eyes  
And didn't show it  
It wasn't till I heard the song  
that squeezed my heart  
and brought the storm  
just outside my window  
Now I feel  
it can't be real  
Please take me home  
Your empty body  
doesn't remind me  
CHORUS  
In the beginning  
there was nothing  
Some things never change  
Just outside my window  
is the rain  
We had plans  
and we had time  
I really thought we'd live our lives  
here together  
But like a Monarch Butterfly  
a glimpse of beauty passing by  
Just outside my window  
Now I feel  
it can't be real  
Please take me home  
Your empty body  
doesn't remind me  
In the beginning  
there was nothing  
Some things never change  
Just outside my window  
is the rain  
Is the rain  
Just outside my window  
Just outside my window  
Oh  
In the beginning  
there was nothing  
Some things never change  
Just outside my window  
is the rain  
Is the rain  
Oh  
In the beginning  
there was nothing  
Some things never change  
Just outside my window  
is the rain  
Is the rain  
Just outside my window  
Take a look  
Take a look outside  
my window

Take a look outside my window  
Just outside  
Just outside
