

# Louder

Keb' Mo'

Young people are talking  
They want action, and they want it now  
They want to change the direction that we're walking  
And the lack of common sense that our laws allow

Some people are saying  
That the young folks just don't understand  
But a raging silent revolution  
Is rising up all across the land

It's gonna get louder  
It's gonna get crazy  
It's pickin' up power  
Pickin' up steam  
Got a new generation  
Stronger than steel  
They're gonna get louder  
It's about to get real

Young people are thinking  
With a mind that's all their own  
They are ready, willing and they are able  
Why don't we just let them take control

They're gonna fight the fight 'til they find the answers  
They're gonna do what we have failed to do  
They're gonna throw all the cards on the table  
It's their life they're giving voices to

And they're gonna get louder  
They're gonna get crazy  
They're pickin' up power  
Pickin' up steam  
We got a new generation  
And they're stronger than steel  
They're gonna get louder  
It's about to get real

And I'm dreaming of a transformation  
Like the world has never seen  
Around the world and across every nation  
There's a whisper turning into a scream

And It's gonna get louder  
It's gonna get crazy  
It's pickin' up power  
Pickin' up steam  
We got a new generation  
Stronger than steel  
They're gonna get louder  
It's about to get real

And It's gonna get louder  
It's gonna get crazy  
It's pickin' up power  
Pickin' up steam  
We got a new generation

Stronger than steel  
They're gonna get louder  
It's about to get real

They're gonna get louder  
It's about to get real

They're gonna get louder  
It's about to get real
