

# My Shadow

Keb' Mo'

We used to be close  
Always together  
We loved the sunshine  
We were real good friends  
Then came you  
A beautiful distraction  
And a wonderful relationship  
Came to an end  
Whatever you did  
The damage is done  
You did something  
That nothing and no one else could do

It used to be me  
And my shadow  
But now my shadow  
Is following you  
Following you

It's a mystery  
It don't make sense  
How can a shadow  
Be taken away  
But I must admit  
If I were my shadow  
Nothin' in this world  
Could make me stay  
Whatever you did  
The deed is done  
He did something  
I didn't have the nerve to do

It used to be me  
And my shadow  
But now, my shadow  
Is following you, running after you

I'm out in the sunshine  
Feeling all alone  
And I hope my shadow  
Will soon come home

Whatever you did  
The deed is done  
He did something  
I didn't have the nerve to do

It used to be me  
Me and my shadow  
But now, my shadow, oh yeah

It used to be me  
And my shadow  
But now, my shadow  
Is following you, is following you  
Yeah yeah following  
Oh following you

Oh my my my my my my my  
My shadow
