

# Stand Up (And Be Strong)

Keb' Mo'

Listen up, get ready, I'm not gonna take no more  
There's a revolution, revelation, going on in my soul  
Buckle up, get ready, we're not gonna sit back and wait  
And allow ourselves and each other to lose control about things  
There'll be no sacrifice  
No more tears  
No more pain  
Lord, no more fears  
I got to make my move  
Get out of my way  
'Cause we've been waiting way too long

We don't wait  
Wait no more  
We got a mind  
Of our own  
That's right  
We can't go wrong  
If we stand up and be strong

Get up, everybody, get off your ass  
We got to do something and we got to do it fast  
'Cause the people are hungry, starving, and a few things more  
Don't wait for Jesus, he ain't coming back no more  
We've got to sacrifice  
Write no bill  
Shed no blood, no  
Shed no tears  
Gonna make our move, get out of my way  
We've been waiting way too long

We don't wait  
Wait no more  
We got a mind  
Of our own  
That's right  
We can't go wrong  
If we stand up and be strong
