

Talk

Keb' Mo'

Hello Mr. President, my day was just great
It's really nice to meet you and your Secretary of State

What do we do about our angry neighbors

How do you justify their behavior
Well maybe there's a reason

How's your father? Is your mother all right?
You know, I was with my family, just the other night

We're in the middle of a revolution
Creating even more confusion
Is war the only answer?

Why don't we talk to each other
Lets talk to each other, that's all
Why don't we talk to each other
Understand one another
Talk to each other, that's all

There goes the Navy sailing off to war
Do they know who they're fighting
Or what they're fighting for?

I'll pray for our angry neighbors
And I'm gonna pray for you
Let's think about our behavior
And ask for a solution

So we can talk to each other
We can talk to each other, that's all
Why don't we talk to each other
Understand one another
Talk to each other, that's all

Why don't we talk to each other
Come on, lets talk to each other, that's all
Why don't we talk to each other
Understand one another
Talk to each other, that's all

That's all...
