

# Easier Said Than Done

Keel

It's a dirty job  
But if somebody's gotta do it  
I'm gonna be the one  
I got some real bad news  
Beggars can't be choosy  
You can hide but you can't run

If I've had it once  
I've had it twice, so just a  
Listen babe take my advice  
If you can't stand the heat  
You've backed yourself into a corner  
Asked for trouble and here it comes

It's all so simple  
But it's easier said than done  
Yes, it's all so simple  
But it's easier said than done

This ain't russian roulette  
Ain't got no second chances  
You're getting in too deep  
There ain't no life after death  
And you've blown your cover in it  
So just read 'em and weep

So now you've made your bed  
You gotta sleep it off  
Now you've lost although  
You think you've won  
But talk is cheap  
You might think it's getting better  
But it's easier said than done

It's all so simple  
But it's easier said than done  
Yes it's all so crazy simple  
But it's easier said than done

Yeah listen it  
It's all so simple  
But it's easier said than done  
Yes it's all so simple  
But it's easier said than done  
Easier said than done

You want to call the shots  
You gotta make you move  
Do it fast and make it good  
Well you've fallen from grace  
Took some bad advice  
'Cause it's easier said than done

Yes it's all so simple  
But it's easier said than done  
Easier said than done  
Easier said than done

It's a dirty job  
But if somebody's gotta do it  
Easier said than done  
If you want to call the shots  
You gotta make you move  
Easier said than done  
Easier said than done
