

## Hard As Hell

Keel

Turn on the red light  
This situation's of control  
Ain't no cure for snakebite  
Just whisky and hot rock'n roll

Rise and shine - over and  
over again  
It don't come easy when you're  
playin' to win

It's Hard As Hell  
You make it when you take it, baby  
Hard As Hell  
c'mon and shake it

Pick up the pieces  
C'mon babe, get down on my luck  
No tellin' secrets, we both know  
You just want to get stuck

In the middle of love  
No you're not pulling my leg  
I've got to hand it to you  
No, you don't have to beg

Because I'm Hard As Hell  
Everytime you take me baby  
You make me Hard As Hell  
C'mon and shake it

Hard rock candy  
Guaranteed to melt in your mouth  
You may be moist  
around the edges baby  
But there's fire down south

Blow by blow - over and over again  
Touch and go - under your skin
