

The Devil May Care

Keel

Everybody's got something to fight for
Something to live and die for
Some kind of cause to defend
Another means to an end

And some don't give a damn
We just do what we can
To give as good as we get
With out blood and our sweat

To hell and back is where I've been
I don't care if I fit in
Gonna do what I choose
Win or lose

The Devil May Care
The Devil May Care
The Devil May Care - but I don't

I don't answer to no one
Don't regret the things that I've done
Yeah I got my reasons
But nowhere left to run

Don't believe in judgement day
Because I'm gonna do it my way
Let the chips fall where they may
That's all I got to easy

To hell and back is where I've been
I don't care if I fit in
Gonna do what I choose
Win or lose

The Devil May Care
The Devil May Care
The Devil May Care - but I don't

I know someday I'll pay the price
for the life I'll leave behind
But right now I'll sacrifice to take what's mine
