

# 24/7

Keenan Te

I've been trying my best  
To find the words to tell you  
Something in my head  
Keeps stopping me now  
I wish I knew how  
Cos I've been running away  
From any chance that I get  
To finally say  
What I really mean  
I wish you could see

That it's true  
I only wanna be around you  
Funny how I don't know what to do  
Every time that we're apart  
It's so hard

So give me all of your love  
Nothings ever too much  
Baby I could never get enough  
I'll hold you through the long nights  
I know we'll be alright  
Oh it's just you and I  
24/7, for the rest of my life  
24/7 for the rest of my life  
Baby, I hope you know it's just you and I  
24/7, for the rest of my life

The way you're looking tonight  
Oh you got me speechless  
The light in your eyes  
Got me fading away  
Oh you make it okay

Oh it's true  
I only wanna be around you  
It's funny how I don't know what to do  
Every time that we're apart  
It's so hard

So give me all of your love  
Nothings ever too much  
Baby I could never get enough  
I'll hold you through the long nights  
I know we'll be alright  
Oh it's just you and I  
24/7, for the rest of my life  
24/7 for the rest of my life  
Baby, I hope you know it's just you and I  
24/7, for the rest of my life
