

# Forgot About Us

Keenan Te

What if I wasn't meant to be happy?  
And what if I believed in more lies than the stars up in the sky?  
Now I'm calling for a taxi  
While you're sitting in his backseat  
You took him to the place we used to lie

These city lights  
Don't shine so bright  
Now that you're not mine

Don't say you're sorry and don't say I'm yours  
When I'm not the only one that you're falling for  
Don't say you love me 'cause it just makes it worse  
I'm losing my balance on the edge of your words

I'm making friends with the ceiling  
While you're busy sleeping on the other side  
Of someone's bed tonight  
Hate that I miss you after all that you've done  
I'll never forget how you forgot about us  
Forgot about us

Only you know how to make my heart break  
And only you know all the words to say to make it all alright  
You shoulda never put your phone down  
What a stupid way to find out  
Better leave this place and get you off my mind

These city lights  
So far behind  
Now that you're not mine

Don't say you're sorry and don't say I'm yours  
When I'm not the only one that you're falling for  
Don't say you love me 'cause it just makes it worse  
I'm losing my balance on the edge of your words

I'm making friends with the ceiling  
While you're busy sleeping on the other side  
Of someone's bed tonight  
Hate that I miss you after all that you've done  
I'll never forget how you forgot about us  
Forgot about us, oh-ooh-ooh, oh-ooh

I'm making friends with the ceiling  
While you're busy sleeping on the other side  
Of someone's bed tonight  
I'm lying here barely breathing  
While you're catching feelings  
On the other side  
Of someone's bed tonight

Hate that I miss you  
After all that you've done  
I'll never forget how you forgot about us  
Forgot about us
