

Hello

Keenan Te

Every time we fight, baby we makeup
Unhealthy way to fall in love
I gotta let you know I lose it all sometimes
I don't know if I wanna fight
The way we do, it's out of control

And it's not wise for me to stay here if you're just gonna yell
To my surprise I think I'm taking this all in very well

So I said goodbye to your mother
Left your daddy a note
For the last time
Tell your brother that I hope he is well
Cause if you really cared (I know that you don't)
Then how did we get here? (I don't really know)
So I said goodbye to forever
It's the last time that I'll say hello

Don't know what you're telling all of your friends
Lying to their face trying to pretend
And I can't believe I ever did love you
Can't see the same things I used to
I'm glad that I'm not still confused

And it's not wise for me to stay here if you're just gonna yell
To my surprise I think I'm taking this all in very well

So I said goodbye to your mother
Left your daddy a note
For the last time
Tell your brother that I hope he is well
Cause if you really cared (I know that you don't)
Then how did we get here? (I don't really know)
So I said goodbye to forever
It's the last time that I'll say hello
(So I said goodbye to forever)
It's the last time that I'll say hello
(So I said goodbye to forever)
(It's the last time that I'll say hello)
Cause if you really cared (I know that you don't)
Then how did we get here? (I don't really know)
So I said goodbye to forever
It's the last time that I'll say hello
(So I said goodbye to forever)
(It's the last time that I'll say hello)
(So I said goodbye to forever)
It's the last time that I'll say hello (hello, hello)
