

## Passing By

Keenan Te

It didn't have to end this way but  
Look at us, it's only getting worse and worse and worse  
By the minute, yeah we're cursed right now  
Yeah, how's this gonna start?  
We're getting used to time apart  
Yeah, no more conversations about life ahead of us  
We're looking back at what's become

And I know that I said some things I didn't mean  
But I hope that you were really happy with me  
It's a shame, that this is already done

It's so hard to say goodbye  
'Cause I know that we tried  
And maybe in another life  
We'd be more than strangers passing by

It didn't have to be like this 'cause  
I regret the things I did  
I tried my very best  
But I know you expected more

And I know that I said some things I didn't mean  
But I hope that you were really happy with me  
It's a shame, that this is already done

It's so hard to say goodbye  
'Cause I know that we tried  
And maybe in another life  
We'd be more than strangers passing by  
Oh, passing by  
It's so hard to say goodbye  
'Cause I know that we tried  
And maybe in another life  
We'd be more than strangers passing by  
And I know that we had  
So many things for us planned  
But baby in another life  
We could be more than strangers passing by
