

Ballin'

Kehlani

Welcome to the camp

I picked up what you throw and give it right back
Two-player mode, it's on go, I like that you like it like that
And if only
I could keep it for me and you only
I'll keep tellin' 'em you're just my homie
Let 'em think that I'm still by my lonely

So I put a point on the board just to even the score back
Every time you be on what I'm on when you get into my bag
Ain't gotta define, different type of time
In a world where you're mine
This is yours (Ooh)

We be endin' up ballin', ballin' (I)
No one knows that we ballin', ballin' (I)
And there's nobody (Nobody) else that can play (Can play) in this game that we made (We made)
That's how we ended up ballin'

Keep me on my toes, know my body, we knee-deep
They don't know we connect like the Wi-Fi
And I need you without being needy
Fuck it, I might just tell 'em we ballin'
In the mind and the spirit and wallet
Calm it down so you don't think I'm wildin'
All I know is the timing be timing, ah

So I put a point on the board just to even the score back
Every time you be on what I'm on when you get into my bag
Ain't gotta define, different type of time
In a world where you're mine
This is yours (Ooh)

We be endin' up ballin', ballin' (I)
No one know that we ballin', ballin' (I)
And there's nobody (Nobody) else that can play (Can play) in this game that we made (We made)
That's how we ended up ballin'
