

Crash

Kehlani

Your love is so damn healing, ooh
Wish I could share with the children to prove
That when love's inside, and you
Put down your pride, the things you can do

You kiss me like you wanna make love
To all my fucking demons
And I don't wanna wake up

Baby, just lie here and crash
Land your love on me
Oh baby, crash
Like there's no gravity

Hate won't faze us
When a feeling is good, the weight won't break us
We'll be living, moving in godspeed around ya
Only let someone of God speak about you
Yeah (Yeah-yeah)
Oh, oh

You kiss me like you wanna make love (Kiss me)
To all my fucking demons
And I don't wanna wake up

Baby, just lie here and crash
Land your love on me, oh, oh-oh, oh
Baby, just lie here and crash
Like there's no gravity
Baby, crash
Land your love on me
Oh baby, crash, yeah
Like there's no gravity
Yeah, yeah
