

## First Life

Kehlani

Maybe I should take a break  
Take a rest from falling so hard  
I need to learn to be alone  
'Cause how could I know what I want  
If I ain't never been on my own?  
Big, bad, and grown

Skeletons keep haunting me  
Wishful thinkin'  
That they go away  
If I wish 'em bad, I'd paint them red  
Hangin' onto words that you said  
I

Girl, I ain't on my first life  
It'll be alright  
Don't change your mind about me  
Let your guard down for tonight  
Don't wonder why  
We're just passin' time

'Cause you deserve what I'm givin'  
And you are worth every minute  
It's only time that we're spendin'  
Want me to be here, I'm willin'  
All of this love that we're makin'  
I wanna give it, not take it  
We could just be here, I'm patient  
Girl, I ain't on my first life

Me neither  
Want you, don't need you  
Promoted to please you  
There's no reason to be holdin'  
Back like my legs, I'll stay open  
To all the ways that we're growin'  
Sure not gon' fix what ain't broken

What if there's a time and place  
That we could go  
To be by ourselves?  
Be all the ways that we feel  
It's funny how you never know  
How things could go  
We're just you and I  
And no extra eyes

And these skeletons keep haunting me  
Wishful thinkin'  
That they'd been away  
If I wished 'em bad, I'd paint 'em red  
Hangin' onto words that you said  
Girl, I

Girl, I ain't on my first life  
It'll be alright  
Don't change your mind about me

Let your guard down for tonight  
Don't wonder why  
We're just passin' time

'Cause you deserve what I'm givin'  
And you are worth every minute  
It's only time that we're spendin'  
Want me to be here, I'm willin'  
All of this love that we're makin'  
I wanna give it, not take it  
We could just be here, I'm patient  
Girl, I ain't on my first life
