

# Get Away

Kehlani

Don't let it go, let it go  
Don't let it slip away

Every man wants a queen  
Like Jada in her prime 1990's fine  
Gotta match his fly like something from a dream, or movie script  
When you kiss her lips, should feel something like this  
All of a sudden music's playing in the background  
Not just any music talking Mr. Soul Child  
Sparks will fly when lips first touch  
All of these doubts get left in the dust  
Heat of the moment so no one to judge, no one to judge

So tonight you should go and take a chance with her  
She could be everything you wanted, everything you wanted boy  
Don't let that get away  
Don't let that slip away  
Don't let that love escape  
Don't let that get, don't let that get away, don't let that  
Don't let that slip away  
Don't let that love escape  
Don't let that get away  
Don't let that slip away  
Don't let that love escape

I always wondered 'bout why you let me go  
Why you let me walk, up on out that door  
We just went out for drinks  
Then you took me home  
Walked me to my porch  
Where you turned me on  
That night you told me that you heard it in the background  
Not just any music talking Mr. Soul Child  
Said you was scared to come fuck with me cause you see I'm chasing dreams  
But that don't mean that I don't need no love

So tonight you should go and take a chance with her  
She could be everything you wanted, everything you wanted boy  
Don't let that get away  
Don't let that slip away  
Don't let that love escape  
Don't let that get, don't let that get away, don't let that  
Don't let that slip away  
Don't let that love escape  
Don't let that get away  
Don't let that slip away  
Don't let that love escape
