

Love Language

Kehlani

A lot of ways to love you
Teach me through your eyes
What is needed for you
Needed in your life
Don't wanna go shopping
You want picnics in the park
Do you like mornings
Should we do it in the dark

It's all foreign to me, I don't speak what you speak
I'll commit to learning if you, if you
You're a sweet fantasy, singing your ABC's
Please be patient with me, will you

Said I wanna be fluent in your love language
Learning your love language
I know I don't speak your language
But I wanna know more, baby
Fluent in your love language
Learning your love language
I know I don't speak your language
But I wanna know more, baby

Never wanna get lost in translation
Never wanna be on two separate pages
Swear to me that you'll state facts
If you can take back, know I can take that
I been working at it, hoping that you'd notice
I been waiting, I just needed you to focus
Swear to me that you'll show me
Need you to coach me, then we can proceed

And still
It's all foreign to me, I don't speak what you speak
I'll commit to learning if you, if you
You're a sweet fantasy, singing your ABC's
Please be patient with me, will you

Said I wanna be fluent in your love language
Learning your love language
I know I don't speak your language
But I wanna know more, baby
Fluent in your love language
Learning your love language
I know I don't speak your language
But I wanna know more, baby

Said I wanna be fluent in your love language
Learning your love language
I know I don't speak your language
But I wanna know more, baby
Fluent in your love language
Learning your love language
I know I don't speak your language
But I wanna know more, baby
